Chapter 5: Dede—1994 and 1948

In this chapter, we revisit Dede's present life in 1994, then flashback to her earlier life when all of her sisters were still alive. One key individual enters their lives in this section, Virgilio Morales (AKA Lio). His entry into the girls' lives affects them significantly. Before we examine 'The Lio Effect', please think for a moment about an individual who has greatly impacted your life. Choose someone who you see as passionate. Write about the following:

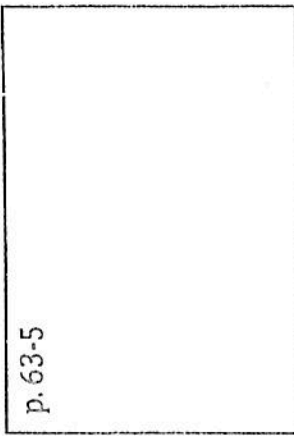

- 1- Write the month and year you first encountered this person. Describe the first time you saw him / her. Include details about what you remember, how he / she looked, where you were, and how you felt.
- 2- Describe what happened next- Choose one memory and write about it. As you write, integrate your thoughts and feelings as you recall them.
- 3- Flash forward to the present. Write the month / year for now. Reflect on this person and their impact on your life.

Chapter 5: Dede—1994 and 1948

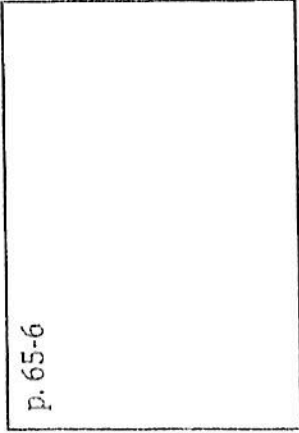

Step 1: Examine one Chapter Section (Groups of 3-4). Review assigned section and prepare a skit, slam poem, or other presentation that highlights main events and larger theme of your section. Give your section / presentation a fitting title.

Step 2: This chapter is broken into 10 sections. For each section, you will be dazzled by a short scene, hear an awesome slam poem, or listen to an animated explanation of plot. Each group will enlighten you about the importance of their scene. As you listen and watch, make notes, sketch an image, or draw something that represents the key events and significance of the scene.
